For being part of the Doodle series, it really doesn't stand up to its siblings.

There's too much element groups, i got most of the groups and my eyes were hurting from all the visuals, and just like the groups, some of the elements don't make sense. Some of the elements are just another element but with an added word at the end/start such as "Theft" for multiple items, it just seem lazy and uninspired.

The story is short and boring, that's all I have to say about it.

The only redeeming quality (if you can call it that) is how short it is so you don't have to suffer through the game.
